*Pull Together Now*, a *United Religion's Initiative Multi-Region Cooperation Circle* is hosting this conversation with these panelists to share about their traditional way of thriving in harmony with Nature for millenia. About their centuries long struggle to preserve & protect their sacred homelands, Earth-based spiritual way of life & culture from religious fanatics, greedy transnational corporations & corrupt governments. We will learn about their everyday fight for survival in the ongoing colonial schemes to drive them to extinction & how we can truly pull together & work side by side to end genocide, dehumanization and ecocide everywhere. This gathering will allow us to ask ourselves these core questions:

- What are the systemic root causes of this crisis and others?
- What we have wrought in the world?
- How to change the values and ethics of people and systems perpetuating domination, dehumanization and greed? How we enhance these efforts?
